LENA CLARKE

Software Engineer

PROFILE

Software engineer who builds reliable web services and internal tools, with a focus on clean code, automated testing and steady delivery.

EXPERIENCE

Software Engineer | 2022 – Present
Brightline Media

- Built and maintained REST APIs serving 31k+ daily requests
- Mentored junior developers through code reviews and pairing
- Introduced automated tests that raised coverage to 90%

Software Engineer | 2020 – 2022
Coral Bay Group

- Cut page load times by 37% by profiling queries and adding caching
- Documented processes so new team members could ramp up faster

Junior Software Engineer | 2018 – 2020
Harbor Health

- Consistently rated 'exceeds expectations' in annual reviews
- Partnered with managers to set quarterly goals and track progress

EDUCATION

B.Sc. Computer Science | 2018
University of Technology, Jamaica
